PROFILE

Results-oriented web developer with over 2 years of experience translating complex concepts into innovative solutions, coupled with a proven track record in web development, system analysis, and interface design. Mastery of cutting-edge web technologies and frameworks. Dedicated to continuous learning and improvement in the field of software development. Excels in team environments, leveraging strong communication and interpersonal skills to foster seamless collaboration.

WORK EXPERIENCE

Web Developer, Mitiget Assurance and Technology Services Limited

August 2023 - November 2023 (Lagos, Nigeria)

- Played a pivotal role in the development of a Point of Sale (POS) system for small and medium-scale enterprises, aimed at achieving a 75% reduction in customer service time and transaction processing time.
- Led the user interface design and actively participated in the system requirement and analysis phase for a streamlined and user-friendly Learning Management System (LMS). This system facilitates seamless registration of staff for courses and awareness programs within corporate settings.
- Created comprehensive process flow and data flow diagrams, illustrating end-to-end workflows for an all-in-one Ultimate Beneficiary Owner (UBO) compliance system for 100% clarity in development.
- Conducted rigorous testing, including user acceptance testing, ensuring the UBO Compliance System met high-quality standards mandated by the Central Bank of Nigeria.
- Engaged with stakeholders to elicit and prioritize business needs, demonstrating strong communication skills and translating requirements into actionable technical specifications.

Freelance Web Developer

Nov 2021 - July 2023

- Applied innovative design principles and technical expertise to create engaging websites for a Non-Fungible Token (NFT) project which captivated the target audience, elevated project visibility and significantly boosted token sales by over 80%.
- Demonstrated expertise in translating client requirements into functional and visually appealing web applications.
- Successfully integrated new and advanced SEO and performance optimization techniques in existing websites for clients in the United Kingdom, resulting in a client satisfaction rate of 95%.

Software Engineering Intern, Humber Technologie Limited

Jun 2021 - Oct 2021

- Collaborated with software engineers to develop the user interface for a web-based gaming application, allowing users to engage in trivia games, accumulate points, and compete for prizes.
- Developed robust problem-solving and debugging skills through active participation in the development of web-based gaming applications. Proficiently identified and resolved bugs and errors, ensuring a seamless and error-free browsing experience across diverse browsers and devices.
- Drove the quality assurance process by actively participating in the testing phase of web-based gaming applications. Conducted comprehensive testing, including user acceptance testing, to identify and rectify issues, ensuring the flawless functionality and optimal performance of the gaming applications across various browsers and devices.
- Proactively stayed up-to-date with the latest trends and advancements in software engineering through continuous learning and interaction with senior engineers, resulting in the ability to leverage cutting-edge tools and techniques in web development projects.
